

## Provisioning Solution for Service Providers

Discover why leading service providers choose **ProvisorSP™**

ProvisorSP™ automates and simplifies the complex processes required for Service Providers (SPs) to offer shared hosted services. This includes the set-up, assignment and management of application privileges and resources for Microsoft Exchange 2007 as well as other messaging and collaboration related software and services, such as SharePoint and RIM devices.

Developed to support Microsoft's .NET strategy, ProvisorSP is an XML-based platform that can be easily customized to meet specific Service Provider business requirements.

ProvisorSP ensures you can easily update directories, quickly provision new accounts, ensure security between accounts, and automate many of the time-consuming and tedious tasks associated with Hosted Exchange. Speed up time to market and reduce ongoing costs – it all adds up to a better bottom-line.

A proven solution with hundreds of thousands of end-users, ProvisorSP has been deployed at numerous customer data centers around the world.

### ProvisorSP Empowers you to:

- Reduce Help Desk Calls
- Rapidly deploy new accounts securely
- Give control to your customers with customer self provisioning
- Provide a flexible solution to your customers that meet current and future provisioning needs.
- Easily service channel resellers while ensuring infrastructure security
- Improve your bottom-line and drive sales.

ProvisorSP is a powerful provisioning engine that quickly becomes a key corporate asset. The ProvisorSP engine acts as a transaction controller that intelligently automates and streamlines the common tasks associated with provisioning and managing enterprise applications according to defined business rules. These tasks include:

- Initial set-up (individual or bulk creation)
- Setting access limits and security settings
- Usage growth and policy management
- Service bundling
- License management
- Usage metering and reporting

Since 2000, Abridgean has been providing superior provisioning products to the market, including some of the top hosted Exchange providers. Discover today how our powerful ProvisorSP engine can rev up your bottom line.
